

**Clarence Landcare Incorporated
High Risk Gully Rehabilitation Grant Project 2006**

PROPERTY : KEN TUCKER

AREA : NYMBOIDA

PROJECT No : HR001

FUNDING : \$*****

LANDHOLDER INKIND : \$*****

AIM : Remediate evidence of gully and steep slope sheet erosion, install gully control structures, extend native veg. corridors, fencing cattle exclusion zones and establish deep-rooted perennial ground cover.

METHOD : Earthworks carried out by de-silting two dams, installing trickle pipes and redesigning spillways for better water flow management. Fence off areas from stock and plant out with local native species. Sow erosion areas with deep-rooted groundcover grasses/legumes.

Funded by the Northern Rivers
Catchment Management Authority
