

Clarence Landcare Incorporated
High Risk Gully Rehabilitation Grant Project 2006

PROPERTY : HAMMOND/ROGERS

AREA : TULLYMORGAN

PROJECT No : HR002

FUNDING : \$*****

LANDHOLDER INKIND : \$*****

AIM : Remediate gully erosion and salinity affected areas of gully, prevent stock access through fencing and replant native vegetation.

METHOD : Remove soil bank out of normal water flow line, create small contour bank in new area, sow grass seed. Fence both sides of creek and gully areas to prevent stock access and replant with local native species.
